

Origami Triangle Box

1. Start with a square piece of paper, plain side up.

Fold the paper in half.

2. Fold the top corners toward the bottom point, then open to create these creases.

3. Fold both layers of the bottom point up to the top of the model, then open.

4. This is one completed unit, You need three. So make 2 more of these!

5. Insert one unit inside the other, then link the units all together.

Completed Triangle Box

4 sided Triangle Box

Cut out a square piece of paper to glue to the bottom of the box. This will cover up the hole and look neat!

The square should be the same size as the opening of the box, so measure the edges to get a perfect fit.

You can also make boxes with more than three units.

If you join four units together, you will have a lovely box with a square opening...

If you join 5 units together, you will have a box with a pentagon shaped opening.

Note: boxes with more than 3 units will need a bit of paper on the base as the units will not quite touch.
